Re: Compliments to the Company

Adam Kaliner
Power Home Remodeling Group
2501 Seaport Drive First Floor
Chester, Pennsylvania 19013

Dear Mr. Kaliner:

As new customers of your companies' products and service, we want to extend our sincere appreciation for the extraordinary quality and cost effectiveness of your materials available to homeowners.

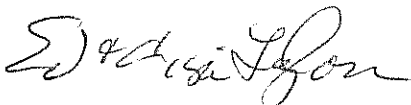

The exterior of our brick home was in poor condition. Upon the siding of our entire home, adding shutters, and replacing the garage door using your companies' products the transformation is extraordinary.

Your salesman: Bill DiPaulo was amicable, honest, and sincere; and most important to us was his knowledge of your products and services. Randall from Jaydor was most helpful as was Carmen and crew during the pre-installation inspection and Olumide Cole in scheduling the installation of products and services. Project manager, Jamie Lockwood thoroughly explained all of the warranties and answered all of our questions.

As the daughter of a retired construction company owner what was most impressive was Andy and his crew, the installers. Their work is impeccable. The entire crew worked tirelessly, effortlessly, and to exacting standards. We do not have enough adjectives to describe the quality of this crews' work.

All of your employees that we have interacted with are a great asset to your company. And as you know, your employees are front line representatives of your company.

Sincerely,

Ed and Lisa Taylor
